

قائمة اختبارات التجميل لشهادات مطابقة الرسالية

Version 5.0

August 2026

○ Hair Dyes

Test Name	Note
Determination of Heavy metals	
Determination of Catechol	
Determination of Hydrogen Peroxide	
Determination of p-Phenylenediamine (PPD)	
Determination of Bandrowski base	
Determination of Ammonia	For Permanent Hair Dye only
Microbiological Tests	

○ Hair Care Products

Including Shampoo, Straightener, Spray, Cream and Oil

Test Name	Note
Determination of Nitrosamines	Only if Amines are present in formula
Determination of Formaldehyde	Hair straightener products only
Polycyclic Aromatic Hydrocarbons	Cream and oils products only
Quinine	For Hair Growth Stimulant Claims
Selenium disulphide as selenium	For anti-dandruff shampoo only
Determination of 1,4 Dioxane	Shampoos
Determination of Salicylic acid	For anti-dandruff shampoo only
Determination of Methylisothiazolinone and Methylchlorisothiazolinone (MIT) (CMIT)	
Detection of Minoxidil	For Hair spray with Hair Growth Stimulant Claims
Determination of Polymers residues	
Detection of Asbestos	Only for Dry Shampoo, or any powder containing product
Microbiological Tests	
Detection of Benzene	Only for Aerosol product

- Mouth Care Products
Including toothpaste and mouthwash

Test Name	Note
Triclosan	For Toothpaste only
Detection of Alcohol	For mouthwash only
Fluoride	For Toothpaste only
Microbiological Tests	
Determination of Heavy metals	
Determination of Hydrogen Peroxide	Only for whitening toothpaste claims
Determination of Chlorhexidine	For mouthwash only
Determination of 1,4 Dioxane	For Toothpaste only
Determination of Nitrosamines	Only if Amines are present in formula

- Lip Care Products
Including lip stick and lip balm

Test Name	Note
Polycyclic Aromatic Hydrocarbons	
Determination of Heavy metals	
Determination of Colors	
Determination of Polymers residues	
Microbiological Tests	

- Nail Products
Polish and removers

Test Name	Note
Detection of Prohibited Phthalates	
Determination of Heavy metals	
Determination of Toluene	
Determination of Colors	

- Perfume and Alcohol and aqueous cleansers on wipes

Test Name	Note
Determination of Methanol	
Determination of MIT/CMIT	Only for wipes
Detection of Prohibited Phthalates	
Determination of allergens	

- Hand soap

Test Name	Note
Determination of 1,4 Dioxane	
Microbiological tests	
Determination of Heavy metals	
Determination of allergens	
Determination of Methylisothiazolinone and Methylchlorisothiazolinone (MIT) (CMIT)	

- Talc Powders

Test Name	Note
Microbiological Tests	
Determination of Heavy metals	
Determination of Boric acid	
Detection of Asbestoses	
Determination of Polymers residues	

○ Deodorant, Antiperspirant and Alum

Test Name	Note
Parabens	Only for aqueous non propellant pump, cream roll-on or stick products
Polycyclic Aromatic Hydrocarbons	Cream Products only
Aluminium zirconium chloride	For non-aerosol antiperspirant only
Microbiological tests	Only for aqueous formulations
Determination of Heavy metals	
Determination of Nitrosamines	
Detection of Prohibited Phthalates	
Determination of allergens	
Detection of Asbestos	Only for powder-based products
Detection of Benzene	Only for Aerosol product

○ Depilatories

Test Name	Note
Polycyclic Aromatic Hydrocarbons	
Microbiological Tests	
Determination of Sulphide Content	
Determination of 1,4 Dioxane	

○ Skin Products

Including skin care, sunscreen, peeling and mineral make up

Test Name	Note
Polycyclic Aromatic Hydrocarbons	
Determination of 1,4 Dioxane	
Hydroquinone	For lightening the skin claims
Microbiological Tests	
Determination of Heavy metals	
Determination of Alpha Hydroxy Acids (AHA)	Only for Peeling products
Detection of forbidden UV filters in sunscreens	
Determination of PABA	Only for sunscreen
Detection of Lard	Only for cream and Paste products
Determination of Colors	Only for mineral make up
Detection of Asbestos	Face, body, baby, make-up powders, and all other inhalable powder products. For example: - Loose Powder ,Compact Powder , Setting Powder ,Finishing Powder. - Blush ,Bronzer ,Highlighter , Contour Powder ,Powder Foundation - Foot Powder, Deodorizing Powder
Detection of Benzene	Only for Aerosol product

○ Eye Products

Including Eye Makeup and Glue Lashes

Test Name	Note
Microbiological Tests	
Determination of Heavy metals	
Determination of Silver Nitrate	
Determination of Colors	
Determination of Nitrosamines	
Determination of Polymers residues	
Detection of Asbestos	Eyeshadow powder products

○ Henna and Seder

Test Name	Note
Microbiological Tests	
Determination of Heavy metals	
Determination of Paraphenyldiamine (PPD)	Only for Henna

○ Shaving Products
Including shave and after-shave care

Test Name	Note
Polycyclic Aromatic Hydrocarbons	
Determination of 1,4 Dioxane	
Microbiological Tests	
Octamethylcyclotetrasiloxane D4	Only If formulas containing silicones and Silicone oils
Determination of allergens	
Determination of Polymers residues	

○ Miswak

Test Name	Note
Microbiological Tests	
Determination of Heavy metals	

○ Oud (Agar Wood) and other perfumes and fragrance oils

Test Name	Note
Determination of allergens	
Detection of Prohibited Phthalates	
Determination of Nitromusks (MA, MK, MM, MT, MX)
