Atrasentan® (atrasentan):
SFDA approved educational materials V. 1.1 Jun 2026

This card contains important safety information that you should be aware of when receiving treatment with Atrasentan. Always carry this card with you during treatment and show it to any healthcare professional involved in your medical care.

If you become pregnant or think that you may be pregnant while taking Atrasentan, or shortly after stopping treatment with Atrasentan (within 2 weeks), contact your doctor immediately.

If you are a patient who can become pregnant:

Pregnancy

Do not take Atrasentan if you are pregnant or planning to become pregnant. Atrasentan may harm the unborn baby.

When pregnancy is detected, discontinue Atrasentan as soon as possible and talk to your doctor immediately.

Pregnancy test

Your doctor will ask you to take a pregnancy test before you start taking Atrasentan.

Contraception

Use a reliable form of birth control (contraception) while taking Atrasentan and for 2 weeks after stopping Atrasentan treatment. Talk to your doctor about contraception during Atrasentan treatment.
